ABOUT ME

Third-year Computer Science student with a strong foundation in Java, Python, full-stack development, and cybersecurity. Proficient in building scalable web applications using React (TypeScript) and Node.js. Experienced in RESTful API development, API integration, and working with third-party services. Skilled in using Stripe API for payment processing and Gemini API for AI-driven features. Strong problem-solving abilities with a passion for developing efficient, secure, and user-focused systems.

TECHNICAL SKILLS

Programming & Scripting	Java, Python, HTML, CSS, JavaScript, PHP
Framework & Libraries	React.js, Node.js, Laravel
Cloud & Database	MongoDB, MySQL
Version Control & Collaboration	Git, GitHub Desktop
Tools & IDEs	VS Code, IntelliJ IDEA, NetBeans, PyCharm, PhpStorm, HeidiSQL, MySQL Workbench, pgAdmin, Figma, Postman, Jira.

PROJECTS

Gemellery - Cloud-Deployed E-Commerce Platform (Group Project)

Nov 2025 - Mar 2026

Contributed to the development of a full-stack AI-powered jewellery e-commerce platform using React (TypeScript) and Node.js, focusing on both frontend and backend features. Developed user-facing components including contact and shipping forms, ensuring smooth user interaction and data handling. Implemented backend functionalities such as cart management, shipping and checkout processes, and order history with status tracking through an order dashboard. Integrated an AI-powered chatbot using the Gemini API to enhance customer engagement and support. Implemented a secure payment gateway using Stripe to enable seamless online transactions. Collaborated on building a scalable, user-centric system aligned with modern web development practices.

GitHub Repository: https://github.com/Gemellery/Gemellery_gemellery.lk

SmartCampus Sensor & Room Management REST API

feb 2026 - Mar 2026

Developed a RESTful SmartCampus API in Java using JAX-RS (Jersey) on Apache Tomcat, featuring room/sensor management, nested sensor readings, and custom error handling. Implemented in-memory data storage with HashMap/ArrayList, tested via Postman, and maintained through Git/GitHub with Maven and NetBeans.

Career Guidance AI Chatbot

Jan 2026 - feb 2026

Built a career guidance chatbot using HTML, CSS, JavaScript with a Node.js (Express) backend. Integrated Google Gemini API to deliver intelligent career recommendations with fallback handling. Implemented secure configuration using dotenv and enabled cross-origin requests with CORS, showcasing full-stack and AI integration skills.

Project Link: github.com/PamudithaSilva/Carrier-guidance-chatbot

Developed a Python-based traffic analysis tool with a Tkinter graphical user interface for processing and visualizing traffic datasets. The application automates CSV data import and generates real-time histograms for congestion pattern analysis. Implemented comprehensive statistical summaries to enhance traffic monitoring accuracy and support data-driven decision-making in transportation management.

EDUCATION

UNIVERSITY OF WESTMINSTER (INFORMATICS INSTITUTE OF TECHNOLOGY) - 2024 - 2028

Bsc (Hons) Computer Science

TAXILA CENTRAL COLLEGE, HORANA - 2020 - 2023

G.C.E (A/L) 2023/24 - 6679102

Science For Technology (S.F.T) - A

Engineering Technology (Etech) - B

I.C.T - B

EXTRA QUALIFICATIONS

Educations

- Successfully completed a diploma in IT(DITEC) at ESOFIT METRO CAMPUS, hosted by PEARSON COLLEGE LONDON.
- Successfully Completed an Arduino Course at Ruhuna University Conducted by IEEE.

Memberships & Affiliations

- Member, IEEE Student branch of Informatics Institute of Technology
- Member, IEEE Computer Society Informatics Institute of Technology

CERTIFICATIONS

- Laravel Essential Training - LinkedIn Learning
- Java Object-Oriented Programming - LinkedIn Learning
- AWS Technical Essentials - Amazon Web Services
- Cybersecurity with Cloud Computing - Cisco Networking Academy
- Java Essential Training: Syntax and Structure - LinkedIn Learning

HACKATHONS

- IEEEExtreame 18.0 Programming competition 2024.
- UOW Problem Solving International Hackathon 2025
- Hacksphere'25 | IEEEExtreame 19.0 Programming Competition 2025.
- CodeRally 6.0 | Advanced Tier | IEEE Computer Society Branch Chapter of IIT.
